From The Editor

Dear Readers and Colleagues,

I do hope you and your family healthy and safe. The COVID19 has effected all of us deeply and many of us could not see families and friends. Hopefully, we will go back to our daily life soon.

I am delighted to introduce the first issue of *Journal of Entrepreneurship and Innovation Management (JEIM)* in 2020. As a growing community, *JEIM* keeps providing exciting opportunities for researchers, professionals as well as the policy makers to access new knowledge, practical information and policy recommendation in the area of innovation and entrepreneurship.

The objective of *JEIM* is to publish up-to-date, high-quality and original research papers. As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging. Each issue of the journal contains research papers.

JEIM is in the eight year and in every issue, we are receiving papers in the field of innovation, entrepreneurship and other related subjects. We have been trying to do our best to shorten the paper evaluation process and thanks to our reviewers, it takes around 2 months to finalize the reviewer process so far. So, we thanks to all of authors and colleagues who support *JEIM* since the establishment.

In the first issue of 2020, we have a very well addressed five research papers from different topics of the university-industry collaboration and innovation, entrepreneurship teaching, intrapreneurship and innovation decision.

Needless to say, any papers that you wish to submit, either individually or collaboratively, are much appreciated and will make a substantial contribution to the journal. Best wishes and thank you in advance for your contribution to the *JEIM*.

Stay well and keep physical distance

Best Regards

Cevahir UZKURT
Editor-in Chief
