

From The Editor

---

**Dear colleagues,**

The new issue of the *Journal of Entrepreneurship and Innovation Management (JEIM)* is ready to provide new inside about innovation and entrepreneurship. We witnessed good number of paper submissions to this issue and we are proud of this. We will keep providing exciting opportunities for researchers, professionals as well as the policy makers to access new knowledge, practical information and policy recommendation in the area of innovation and entrepreneurship.

Despite the good number of submissions, we were not fast enough to provide feedbacks in the same timeframe due to the COVID period. Therefore the review process takes longer time than it supposed to do. We apologize for this and hope to reduce process time in coming issues. Despite their work load, we want to thank to all reviewers and member of The Editorial Board.

In this issue, we have five research papers which analysed entrepreneurial behaviours of different categories of entrepreneurship ecosystem. You will also find research results on impact of innovation on firms performance.

Needless to say, any papers that you wish to submit, either individually or collaboratively, are much appreciated and will make a substantial contribution to the journal. Best wishes and thank you in advance for your contribution to the *JEIM*.

Wish you a nice summer break

Best Regards

**Cevahir UZKURT**
